

1. 21/12/2023 **Increasing visibility of Laboratory Medicine through scientific communication and social media**
2. 12/12/2023 **R and D is good for you - a guide how to become researchers**
3. 06/12/2023 **Outcome studies to advance excellence in laboratory medicine**
4. 28/11/2023 **Getting to know the experts - Committee on Clinical Application of Cardiac Biomarkers**
5. 24/11/2023 **Educational podcasts from the IFCC Committee on Clinical Application of Cardiac Biomarkers**
6. 21/11/2023 **Principles and practice of indirect methods for reference interval establishment**
7. 08/11/2023 **Improved implementation of medical tests – a new quality improvement project for the laboratory**
8. 25/10/2023 **Expanding the use of emerging technologies in pediatrics**
9. 10/10/2023 **Interference on high sensitivity troponin assays**
10. 27/09/2023 **The clinical laboratory and its impact on the environment**
11. 13/09/2023 **Laboratory medicine – a critical role for patients in disease diagnosis and monitoring**
12. 27/07/2023 **Challenges of digital technologies and artificial intelligence in laboratory medicine**
13. 05/07/2023 **Evidence-based Laboratory Medicine and inappropriate Laboratory Testing**
14. 22/06/2023 **Publication Ethics: An overview from different perspectives**
15. 07/06/2023 **Artificial intelligence applied to the Clinical Laboratory**
16. 17/05/2023 **Single-sample rule-out of NSTEMI-are we ready for prime time?**
17. 03/05/2023 **Active Learning Strategies in Clinical Chemistry and Laboratory Medicine**
18. 19/04/2023 **Evidence-based laboratory medicine - systematic review and meta-analysis**
19. 29/03/2023 **Laboratory Medicine and its challenges in low and middle income countries: redefining its leadership, impact of laboratory tests and advantages of a clinical laboratory 4.0**
20. 22/03/2023 **Nitrous oxide abuse: clinical consequences and biological markers related**
21. 15/03/2023 **Recent updates on SARS-CoV-2 biology and diagnostics**
22. 02/03/2023 **High sensitivity troponin point of care assays**
23. 15/02/2023 **Metabolomics: Promises and Clinical Translation Challenges**
